"I reckon dat first man on beah is Mars Wheelock. He called me nigger 'tother day an' I'll scratch he off."

"Can't make out dat second name, but I reckon its Mars Tobias, whose allus running fur office. Trowed a club at me once, an' I can't vote fur him."

There were twelve names on the ticket, and though he couldn't read he followed the list down one by one and scratched out each name in succession, alleging some excuse in each case. When there were no more to scratch he scratched his head instead and said:

"Why, dey is all dun gone off de ticket, an' so dey ain't no use to put it in and squabble around."—Detroit Free Press.

PURIFY YOUR BLOOD.

But do not use the dangerous alkaline and mercurial preparations which destroy your nervous system and ruin the digestive power of the stomach. The vegetable kingdom gives us the best and safest remedial agents. Dr. Sherman devoted the greater part of his life to the discovery of this reliable and safe remedy, and all its ingredients are vegetable. He gave it the name of

Prickly Ash Bitters!

a name every one can remember, and to the present day nothing has been discovered that is so beneficial for the BLOOD, for the LIVER, for the KIDNEYS and for the STOMACH. This remedy is now so well and favorably known by all who have used it that arguments as to its merits are useless, and if others who require a corrective to the system would but give it a trial the health of this country would be vastly improved. Remember the name—PRICKLY ASH BITTERS. Ask your druggist for it.

Till everybody is sick of seeing it

that Dr. Sage's Catarrh Remedy cures the worst cases of chronic catarrh in the head, catarrhal headache, and "cold in the head."

In perfect faith, its makers, the World's Dispensary Medical Association of Buffalo, N. Y., offers to pay \$500 to any one suffering from chronic catarrh in the head whom they cannot cure.

Now if the conditions were reversed—if they asked you to pay \$500 for a positive cure you might hesitate. Here are reputable men, with years of honorable dealing; thousands of dollars and a great name back of them and they say—

"We can cure you because we've cured thousands like you—if we can't we'll pay you \$500 for the knowledge that there's one whom we can't cure."

They believe in themselves. Isn't it worth a trial? Isn't any trial preferable to catarrh?
